

SHERIFF MAY DEFENDS DEPUTY HORNSBY, THROWING NEW LIGHT ON THAT PART OF ARGUMENT

WHY SAYS GRAND JURY HAD ONLY ONE SIDE OF HORNSBY AND BELL DIFFICULTY

When Grand Jury Indicted Deputy Hornsby Sheriff Decided Then and There, He Says To Stick by Deputy.

Editor Eagle:

Allow me space to reply to Mr. Acree's communication of June 1st. There is but little to reply to in this communication except the high regard and respect he feels towards me.

I have already invited not only Mr. Acree, but any other citizen of this county to inspect my official career at any time, and his letter is all O. K. so long as he confines himself to truth; however, this seems to be a very hard thing for him to do. I have nothing to say in regard to Mr. Acree; it is his job in the Probate Office I am after, and to effect a cure of a disease you must first remove the cause. Hence, A. C. Crawford from the Probate Office and out goes W. C. Acree, complete. No one realizes this more than Mr. Acree himself and that is why he has so prominently come to the assistance of his good friend and boss, A. C. Crawford. Boss, you lose it, and out I go.

In protection of W. R. Hornsby, the deputy, Mr. Acree has referred to in saying the grand jury recommended my discharge of him on account of a charge of murder against Mr. Hornsby. I must say that here again Mr. Acree has veered from the truth; however, you have seen that he would do Mr. Hornsby or anybody else who might be convenient any amount of injustice just to draw the public eyes away

from the Probate Office where so many things have evidently been pulled off in cover of quiet and no questions asked. The convict fund seems to be hidden, and I refer to that among other things that have been put over.

One night, several weeks ago, one Henry Bell left Dothan in company of a woman whom I had told to move on or go to the county jail, and they were seen taking with them several suit cases and grips. Of course this was suspicious on account of the whiskey that had been seized being brought into Houston county in this manner. A night or so later we seized a suit case which we had reason to believe was one of the several carried away from Dothan by Henry Bell and his companion. I told Mr. Hornsby, as Mr. Bell was reported to me as always carrying a concealed pistol, to watch the trains for Bell's return and to arrest him and take the pistol off of him and to also search him for the check that would tally with the one on the suit case we already had. Mr. Hornsby in undertaking to do as I had instructed him arrested Bell and took the pistol and in so doing, Bell resisted arrest and Mr. Hornsby, to keep Bell from breaking one of his fingers, struck him over the head with a pair of handcuffs. The grand jurors said that Bell put up such a pitiful tale as to how Hornsby treated him, they would recommend that I not work Mr. Hornsby any longer. They heard only one side of the story, and as I had had it understood with the Foreman and Solicitor that the grand jury would not return a bill against Hornsby, I had promised I would obey them.

When I ascertained that they had billed him, I then and there decided, and feel the same way

(Continued on Page Four.)

SUMMARY OF WAR STATUS

The Austro-German grip on Przemysl is tightening. The Berlin official announcement today says further entrenchments north of the city have been captured, although Russian authorities assert that attacks on these outlying fortifications have been repulsed. The German war office also announced that during May more than 300,000 Russians were taken prisoners.

Severe fighting occurred yesterday on the western end of the Franco-Belgian front north of Arras. The French war office claims that the Allies penetrated Neville and captured several houses as well as trenches near the town.

The British steamer Saldich was torpedoed yesterday in the North Sea. Seven persons, including a woman, were drowned.

The Pre-Dreadnought "Majestic" Fifth Battleship Sunk in the Dardanelles

GERMAN DIPLOMAT GIVEN AUDIENCE BY PRESIDENT WILSON

Washington, June 2.—Count Bernstorff, the German Ambassador, had an audience with President Wilson today at noon. The president received the Ambassador in the historic blue room of the white house.

The white house officials declined to make any statement regarding the Count's visit, saying the engagement was made at his request and that it would be improper for the President to say anything regarding the conference.

The President, it was said, showed willingness to explain the position of the United States, and made it clear that it had been decided upon only after careful consideration by the cabinet yesterday, when it was decided to send a note of inquiry asking whether the imperial government would abide by the principles of international law.

The President, it also was understood, gave his views, expecting the Ambassador to enlighten the Berlin Government on the earnest intentions of the United States to obtain a strict accountability for the loss of Americans on the Lusitania. The visit was entirely friendly and cordial.

Reports Discounted

Reports that the Ambassador had made any definite proposals were generally discounted.

The President already has begun preparation of the next note to Germany, and it was not expected the Ambassador's call would have any material effect in either its scope or its wording.

It is now expected the note will go before the cabinet Friday and be dispatched to Berlin immediately afterward. After his visit to the white house, Count von Bernstorff returned to the embassy and went into conference with the head of the chancellery. It appeared he was about to communicate with Berlin.

The German Ambassador has told friends that he realizes the seriousness of the situation and is anxious to do all he can personally to prevent a rupture in friendly relations. He is usually in communication daily, however, with his government because German cables were cut by the Allies. Consequently high officials did not believe the ambassador could bring any proposal from the German government. After the answer which Herr von Jagow, the German foreign minister, gave to the American note last Saturday.

The importance of the conference, however, lies in the fact that, although the interview was sought without instruction from the German government, the views which the President might express to the Ambassador would be transmitted by the latter to Berlin naturally would be taken into consideration there in connection with the note which the United States plans to send before the end of the present week.

Mr. and Mrs. G. L. Baker of Webb, Ala., in Dothan.

BULGARIA AND RUMANIA READY TO HELP ALLIES

London, June 2.—Rumors are rife that Rumania is mobilizing 1,000,000.

Paris, June 2.—Bulgaria and Rumania have reached a complete understanding, according to a Bucharest dispatch to the Petit Parisien Rumania having agreed to cede territory in Dobruja. The two countries will enter the war simultaneously, the dispatch says, Rumania against Austria and Bulgaria against Turkey.

The army staffs of the two powers are said to be busy coordinating military plans.

Negotiations between Rumania and Russia over the lines of the Pruth and of Danub are said to be virtually complete. If Russia accepts Rumania's proposals the latter country is declared to be ready to begin hostilities without delay.

Dobruja is a part of Rumania bounded on the east by the Black Sea and on the north and west by the Danube river. As a consequence of the second Balkan war between Bulgaria and Serbia and Greece, Rumania took from Bulgaria a large slice of territory and added it to Dobruja province on the south.

Much bitter feeling existed in Bulgaria for some time against Rumania on this account, but more recently a change in the relations between these two Balkan States was observed. Last December the Bulgarian minister at Petrograd was quoted as saying that Rumania had arranged to restore to Bulgaria that portion of Dobruja which had been annexed by the former country after the second Balkan war.

The Pruth river forms the boundary between the Russian territory of Bessarabia and Moldavia, part of Rumania.

Danub is a region in Southern Hungary on the east on Rumania and on the south on Serbia. It is one of the most fertile districts in Europe. The chief town is Temesvar.

ON FISHING TRIP

Jake Henderson, C. K. Hill and H. A. Gibson of Troy, were among those registered at the Martin today. They are enroute to Dead Lakes, Fla., on a fishing expedition.

JIM CONLEY OUT; MORE COURT IN TWO WEEKS

102 Cases Set For Trial at Continued Session of Circuit Court.

Atlanta, Ga., June 2.—Jim Conley, sleek and without a case except that his shoes the shoes given him in the convict camp, pinned his feet a little, counter-acted unexpectedly into Solicitor Dorsey's office Wednesday afternoon and asked if he were needed to testify in the civil suit of Mary Phagan's mother against the National Pencil Factory.

"I wish I had the \$200 that Mr. Frank gave me," he said, referring to the money he had testified Frank offered him for disposing of the slain girl's body, and then took from him "Then I could buy a pair of shoes. These hurt."

At first refusing stubbornly to speak of the Frank case, he at last ventured the statement that he did not write the notes said to have passed between him and Annie Maud Carter, the negro woman in the Tower when he was also a prisoner there. The notes have been used by the Frank defense on the assumption that they were Conley's messages to her in prison, as a means of establishing the authorship of the "death notes" found by Mary Phagan's body.

Written by White Man.

"They were written by a white man who was running the elevator in the jail, a colored man helping him," said Conley. "The woman wrote to me, but I didn't answer her."

Albert W. Osborne, a handwriting expert, has identified the notes as of Conley's handwriting.

Conley said he was going to stay in Atlanta and get a job. "And trust to the Lord," he added, piously. "I've got through this affair so far all right, and I'm going to try to keep on that way."

In the same breath he expressed a bitterness against Leo Frank and he said his former employer ought to be hanged.

"But I'm done with the case," he said. "and I don't want to say another word in it, unless they ask me to testify to the Governor or the Prison Commission."

"Oh, I'll testify to them all

SUBMARINE SINKS BRITISH STEAMER IN THE NORTH SEA

London, June 2.—The British steamer Saldich, from Alexandria, Egypt, for Liverpool, was torpedoed yesterday in the North Sea. Seven members of the crew, including a stewardess, were drowned. Forty-one survivors were landed today at Chatham.

The Saldich had a crew of forty-eight Greeks, a British commander and eight passengers of different nationalities.

The loss of life was the result of the jamming of davits while one of the boats was being lowered into the water.

Those in the other boats were picked up by a trawler. They assert no warning was given. The vessel sank in fifteen minutes.

The Saldich was owned by the Rhedical Steamship Company of London. She formerly was the steamship Pretoria. She was 350 feet long and of 1,981 tons net.

side of this one occasion, he is said to have given the convict authorities no trouble.

According to officials of the convict camp Wednesday, Conley, during the service of his term never changed from the story told to the jury in the trial of Frank. He is said several times to have reiterated this story to officials and visitors to the camp.

The Eagle and Character.

Now and then The Dothan Eagle gives us an example of magnificent hypocrisy. Lately it is printing editorials criticizing the Advertiser and others for carrying certain patent medicine advertisements to which The Eagle cannot condescend to give its benediction. And yet there never has been a copy of The Eagle (so long as this source of revenue is profitable to The Eagle) that did not carry patent medicine advertisements. If The Eagle has embarked upon a little crusade in economical imitation of Collier's Weekly, The Eagle should first cancel its advertising contracts with those agencies which promote remedies frequently arraigned by Collier's. With the merits of Collier's crusade we are not here concerned; only with the merit of The Eagle's position with respect to The Advertiser's business policy are we concerned. Why doesn't The Eagle quit printing stationery for merchants who per chance may sell a little liquor on the side? Why doesn't The Eagle review the character of the practice which each Dothan attorney engages in before the bar? Why doesn't it hold up to public scorn all lawyers who dare to defend murderers, thieves, and other rascals. It is clearly the duty of The Eagle if it would be fairly consistent and logical, to endeavor further to regulate the practice of law. Whenever a lawyer is retained by a client, and The Eagle has cause to believe that client to be guilty, or if The Eagle does not personally like the client, The Eagle should have the lawyer arraigned before the court of public opinion. If necessary The Eagle should bring such cases before the legislature and have a severe penalty provided for any infraction of the law as conceived by The Eagle, which is full of probity and high purposes.—The Montgomery Advertiser.

If the Advertiser's "business policy" permits it to print advertisements of the character above referred to, the only thing we are interested in, is finding out just what character of an ad it would refuse to print.

There isn't a physician in the city of Montgomery, or in Alabama, who would tell you there is the slightest chance for a consumptive to get any relief from such a remedy that is advertised.

The Eagle admits that it carries patent medicine advertisements, and many of them may be entirely worthless, but there are not to be found among the lot, a "specific" for any of the ailments of mankind that the medical world knows are not cured or relieved from nostrums bought at the drug stores. Take for instance, consumption, and cancer. The medical profession and the intelligent reading public, know that remedies of "specifics" advertised are not only worthless, but in most cases are injurious.

The fact that The Advertiser attempts to hold itself blameless on the grounds that it isn't the business of the paper to make such investigations and ascertain whether the remedy has merit to it, is no excuse what ever.

If The Eagle prints job work for a man selling whiskey, that is entirely another thing. Drug stores also sell cough on rats, which is dangerous if not handled properly. The hardware dealer sells guns and pistols, night.

which are dangerous if not handled intelligently.

But would The Advertiser print glaring advertisements of fake mining schemes, and get by with the statement that it didn't have time to make the investigation?

Would The Advertiser excuse its actions on the ground that while this alleged consumptive cure might not really cure consumption, that it wasn't a crime against the ignorant sufferers of this nostrum to be exploited to a public, where possibly hundreds of dollars would be spent for something that could give no relief?

It has a reading public that is ought to respect.

The advertisement referred to has an attractive picture, for it shows an emaciated, decrepit consumptive on his way to a graveyard, accompanied by Father Time with his scythe, a hatchet and horrible journey, and the brutal conclusion ahead. Just to the right, in large type, you read:

"Stop! Don't let consumption take you to your grave. You have to go sometime but you do not have to go that way, because Lung-Vita Conquers Consumption."

That makes the invalid halt. He gathers new hope, and feels that there may yet be relief. He reads further along down the sign, in fine type, the following:

"Strong words, those, but they mean just what they say. Lung-Vita is a specific remedy for consumption, asthma, weak lungs, or any other throat or lung trouble. It has never failed on a case of consumption when taken in time and has restored a number of cases that had been given up as hopeless by the physicians in charge. If that sounds too good to be true, write to Nashville Medicine Co., 154 Steger Bldg., Nashville, Tenn., giving name of your druggist, and you will receive in next mail positive proof that Lung-Vita overcomes those dangerous diseases of the throat and lungs. If you have any of these troubles, don't wait until it is too late. Begin the treatment today. It's worth a special trip to your druggist."

What class of people does that get the money from?

You know, while we admit voting for the anti-whiskey advertising bill in Alabama, we are constrained, when reading the above ad, to believe a mistake might have been made. If all the newspapers which formerly carried ads were to adopt this same "business policy" the Advertiser has, and is going to take this class of ads to make up the deficit, caused by the anti-whiskey advertising law, then we don't know but that a mistake has been made. But do you suppose they will all have to resort to that method?

President Wilson has decided that he is his brother's keeper to the extent of a decision to go to Mexico and make her citizens keep peace.

"To travel hopefully is better than to arrive," said Robert Louis Stephenson. Not if you are traveling toward a good paying office. What say the jays?

A New Jersey celebrity has invented something to prevent roosters from crowing in the early morning. Now let him see if he can invent something to keep the chickens in the perch swing from crackling until midnight.

AUCTION SALE

SELLING VEGETABLES

Montgomery, Ala., June 2.—The newly created Market Bureau of the Department of Agriculture and Industries is attracting much attention from the outside of the State, and inquiries intended to test the practicability of its services are being received from produce merchants in other states. Among these is one from a large dealer in farm

who stated that he desired to purchase new potatoes, beans, tomatoes, cucumbers and all kinds of fruits, vegetables and poultry in car lots and was anxious to open correspondence with reliable shippers in Alabama. Emmet A. Jones, chief of the bureau, promptly mailed this merchant a very full list of products for sale by farmers and shippers of Alabama. This list, which entailed much labor in its compilation, is sent gratuitously to all inquiries, and will doubtless be very effective in assisting the farmers of Alabama in disposing of their products. The market bureau has already justified its creation and its usefulness will increase as it grows.

STOP THE WASTE.

That prohibition prohibits in shown by the fact that the federal government's income has been reduced this year \$2,000,000. Assistant Secretary of the Treasury Peters says: "The revenues from whiskey and alcoholic beverages have shrunk considerably over \$2,000,000 a year, and this unquestionably is due to the spread of the temperance movement, and we are preparing to see it continue to diminish from this cause."

The diminution in come will be because of nine states prohibiting liquor in their borders, to take effect next year. A new plan and system of taxation will be arranged and there are many sources of revenue that can be made instrumental for government resources.

The history of prohibition shows that it is a loss of revenue to the smaller revenue is amply sufficient. Russia's minister of finance testified that even in war times this is true, and England's great expert, Joseph Chamberlain, says on this subject: "If I could tomorrow destroy the desire for strong drink in the people of England and could prohibit its use and manufacture, what changes we should see. We should see more reduced by millions sterling. We should see our jails and workhouses empty. We should see more lives saved in twelve months than are consumed in a century of bitter, savage warfare."

Yet men still ask what will happen to the revenues of the country if liquor is abolished. Experience, with prohibition almost in its infancy, already shows that there will be no shortage in revenue when the enormous waste and drain of the liquor traffic is once stopped.

W. H. Frazier, and wife, left today for Milledgeville, Ga., to spend a few days. They will come back to Thomasville for a visit before they return.

TRANSFER OF "GOOD WILL."

The number of "for sale" advertisements in the liquor journals at the present time is noticeable and significant. One headed "Exceptional Opportunity" states that an "old, established, active whiskey house contemplates retiring from business January 1 next." The date is well chosen, for it is a popular and fashionable time for retiring from the liquor business. The liquor dealers of Washington, Oregon, Colorado, Idaho, Arkansas and Iowa are indulging in the same kind of contemplation as "Exceptional Opportunity," spurred on, to be sure, by the action of their respective legislatures and the voters of their states. "Exceptional Opportunity," however, has the advantage of them, for he offers for sale with the whiskey establishment, its "valuable good will." A bargain in good will, to be sold at reduced rates, to the highest bidder, but, mind you, not the good will of the men who have been ruined by the poison manufactured by this whiskey house; not the good will of the wives and children of the men who drank away their health and intellect and character; not the good will of the taxpayers who have been burdened with the care of the product of the whiskey house. No, all the wealth of the world could not purchase the "good will" of these unwilling parties to the contract of sale by which this transfer of property shall be made—a transfer that makes possible the continuation of a business in the train of which follow unspeakable woes and want for thousands—Union Signal.

CONSISTENCY.

The Great Northern railroad has announced its intention of enforcing total abstinence among its employees. Even to take a glass of beer, if detected, means dismissal. Because of the protest of the liquor interests against the employees of the road taking any part in local prohibition campaigns, or in urging temperance measures, Superintendent McKennon has issued a bulletin stating this fact and forbidding the men to take any part in such movements. The employees are forbidden to drink, yet they are not permitted to make any effort to have the temptation to drink removed from their home towns.

LISTEN, WAGE-EARNERS.

Students of statistics tell us that the number of wage-earners employed in the liquor industry in 1920; in the bread and clothing industry, 492,655. Wages paid in the liquor industry are \$43,262,000; in the bread and clothing industry, \$24,196,000. Cost of raw materials for intoxicating liquor is \$129,199,000; for bread and clothing, \$744,337,000. The people of the United States spend more than \$2,000,000,000 annually for liquor. It requires eight times as many men to sell bread and clothing as it does to sell the same money value of beer and whiskey.

FEARS OF LIQUOR DEALERS.

Quite recently the New York State Wholesale Liquor Dealers' association put their fears into concrete form in the declaration that "the events of the last 12 months have created a situation more grave than has ever before confronted our trade. Formerly we were called upon to oppose town and county option. Today we must combat state and nationwide prohibition. Originally our opponents were few and scattered. Today they are many and united."

NATIVE LIFE OF THE FAR PACIFIC.

The photograph shows the belle of the interesting Samoan village at the Panama-Pacific International Exposition at San Francisco. The structures in this village, comprising the native thatched huts of the Samoans, or as they were formerly called, the Navigator Islands, were brought intact from the native villages and are absolutely faithful in all their features. There are many native families living in the village who for the edification of visitors perform the aquatic feats in which the islanders excel, and dance the rhythmic native dances. The life of the people of the Pacific ocean is wonderfully illustrated at the Exposition, and of all the races none are more interesting than the Samoans who exhibit many traces of Aryan descent. No Exposition visitor should fail to see these unique tribespeople.

CORN CLUB PRIZES OFFERED FOR 1915

Scholarships And Cash Given By H. G. Hastings In Alabama And Other States.

Atlanta, Ga., (Special).—Corn Club prizes for Southern boys in Alabama and nine other states growing states of this section have been renewed for 1915 by H. G. Hastings, general chairman of the Georgia Corn Show Committee and chairman of the Agricultural Committee of the Atlanta Chamber of Commerce.

The prize amount is all to \$1,200, in cash and scholarships, and will be awarded under the direction of the government corn club agents in each state.

In Alabama Mr. Hastings has offered \$100 and arrangements have already been made to award it in scholarship form. In Florida, Mississippi, Louisiana, Texas, North Carolina and South Carolina, Mr. Hastings offers \$100 in each state, to be awarded either in cash or scholarship; according to local arrangement. In Georgia, his home state, he offers a \$250 scholarship in the State College of Agriculture and two additional cash prizes of \$30 and \$20, respectively.

The great educational value and constructive force of the corn club contests, in addition to the prizes they are accomplishing in increased corn production, are emphasized in an interview given out by Mr. Hastings in connection with his announcement of prizes. Mr. Hastings said:

"The interest now being taken in corn production, by the federal government, by state officials, by leading organizations and individuals, is, in my opinion, the greatest constructive force now operative in agricultural affairs in America. For too long the tendency of education in the rural schools was to draw boys away from the farm, but the corn clubs are now combining with true agricultural education to influence the boys to form new ideas and new ideals of farm life. The corn club work is growing in value and importance with each successive year."

GRAIN ELEVATOR IN ELMORE COUNTY

Montgomery, Ala., June 2.—The farmers of Elmore county have organized the Elmore Elevator Co., and will operate the only farmers' elevator in Alabama. The president is Mr. Jenkinson who came to Alabama from the corn belt of the middle west, where farmers' elevators are to be found in every community. Commissioner Wade was much interested in what Mr. Jenkinson told him as to the successful manner in which these elevators are being operated by the farmers, and it is hoped that the example set by the Elmore county farmers will be followed by every county in the State. The Elmore Farmers' Elevator has made arrangements to loan farmers cotton sacks in which to ship their products to the elevator, and is thus co-operating with Commissioner Wade in his efforts

to have all Alabama farm products packed in cotton sacks.

The many friends of Mrs. Hattie W. Gresham will be delighted to know she has decided to spend a part of her vacation in Dothan. For four years she has held a responsible position with Horner Military School, Charlotte, N. C., where her son, Master Julius Gresham is being educated.

GOLD DUST

—it actually works at
hundreds of tasks daily

"Let the Gold Dust Twins do your work" is much more than a popular phrase. It is based on truth, an actuality, for Gold Dust really works.

The millions of women who use it for dishwashing and scrubbing know this. But Gold Dust should be used for cleaning and brightening everything. It is the only washing and cleaning powder needed in any home.

The small quantity required is quickly taken up by hot or cold, hard or soft water—forming a perfect cleaning solution. The valuable antiseptic cleaning agent it contains helps to make things especially clean, so well as bright and new-looking.

5c and larger packages sold everywhere

MADE IN U.S.A. FAIRBANKS, ALASKA

none pass or repeat except those who are duly and truly qualified.

I invite you to keep in close touch with every letter that I am giving out as each letter is to verify the former letter hence my large free gift, defendants.

I am sure that the public will agree with me when I say that Mr. Acre is only a fool in this controversy, and unless he comes with something I feel to be of special interest I will no longer truly to his false accusations.

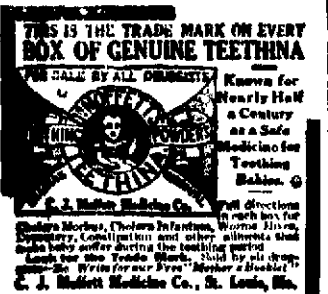

Mr. Acre would not onto my private life, but he loves me so well he cannot bear the thought of doing a thing of the kind, and I invite him to crawl up and crawl out at pleasure.

Very respectfully,
JOHN A. MAY
Sheriff

EX-PRESIDENT
D'ARRIAGA OF
PORTUGAL

Though the recent revolution was not directed personally against President D'Arriga, but against his cabinet and their unpopular acts, over which the president had no control, the Portuguese head felt that the new government might be embarrassed to a greater or less extent by his continuation as the titular head of the new government and resigned his office. The revolutionists had proclaimed their intention to permit him to fill out his constitutional term of office.

nicknames encourage substitution.

THE COCA-COLA CO ATLANTA, GA.

WHEN IS A MAN DRUNK?

Judicial authority in Topeka has ruled that a man is drunk if a policeman can detect the odor of liquor on his breath. It, in addition, he talks and laughs too loudly he is drunk and disorderly and guilty of a breach of the peace. If the standard were applied to the city of New York it is estimated that 750,000 people would be arrested as drunk and disorderly every day. In Topeka the number would be 100,000. In Philadelphia, 100,000. The claim of the liquorites that Topeka has a high percentage of drunkenness is not held water—or any other kind of liquid.

In this connection it may be noted that Topeka, with a population of 47,102, has 29 policemen. This averages for 20 American cities with a population of 43,000 to 49,000 in 10 policemen.

SALOON VS. MODERN BUSINESS.

"It isn't the crank who is putting the saloon out of business," remarks the Wichita Beacon. "It's the business man, the railroad man, the banker, the lawyer, the merchant, the men who have to depend upon someone else for efficiency in the various departments of the important work and who have observed the killing effect of booze on the men who have to be responsible for important work."

"They are the men who are getting the coat of the distiller."

"The saloon is up against the modern business age. It is up against an enemy that it cannot throttle or buy or browbeat or bluff, and it might as well save what it can and go out of business."

PASSING OF "BLUE MONDAY."

"Blue Monday in the industries of Kokomo is a thing of the past," says J. E. Frederick of the Kokomo Steel and Iron company. Kokomo City is without saloons. "On Monday our factories are able to secure the same output as on any other day of the week. This was not the case when saloons were running."

OUTLAWED DEBT.

The supreme court of Georgia has decided that a liquor debt is not collectable in that state.

STRIKE AT THE ROOT.

A gentleman having called in his physician, said, "Now, sir, I want no more trifling; my illness is serious, and my desire is that you should strike at the root of my disease."

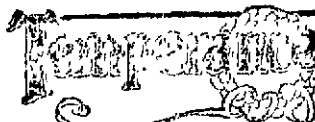

"It shall be done," said the physician, and, lifting his walking stick, he smashed to atoms the wine decanter which stood on the table.

ALSO LOSES INDEBTEDNESS.

Monroeville, W. Va., has reduced its floating indebtedness from \$32,000 to \$6,630. "This floating indebtedness was piled up several years ago while the city had a big income from saloon license," says the Monroeville Echo. Now that the city has lost the saloon revenue it has also rid itself of the indebtedness.

DON'T WANT BOOZERS.

"Alcohol slows a man down. I don't bother with youngsters that drink."

TEMPERANCE
(Coca-Cola is the National Woman's Christian Temperance Union)

FROM MANY WITNESSES.

In carrying up a complete refutation of the statement sent out by the National Wholesale Liquor Dealers' association in an article on "Facts About Prohibition in Kansas," Governor Arthur Capper says:

Let us call the witnesses and see what they think of prohibition in Kansas. If anyone should know they should know, for they live with it and under it.

The governor of Kansas says prohibition is a great success.

Every state official who has spoken out says prohibition succeeds.

More than 700 editors and newspaper men of Kansas in state convention, unanimously endorsed prohibition.

Every political party in Kansas favors the prohibition law.

No minister has ever opened his mouth in favor of return of license, neither has any schoolteacher.

The president of Kansas Retailers says prohibition pays.

The president of the State Bankers' association believes that prohibition is a tremendous asset to Kansas.

One hundred and sixty six bankers have filed their testimony in favor of the law with the Temperance society of the Methodist Episcopal church, and only six could be found in all the state who doubted the wisdom of this legislation.

The president of the Kansas Medical society believes in prohibition.

The president of the Commercial clubs of Kansas has said that prohibition has added real value to every acre of Kansas land.

The supreme court has testified in the following strong language to the benefits of the prohibition law.

"The prohibitory law is well enforced throughout the state. It is as generally well enforced as any other criminal law. The enforcement of the law distinctly promotes social welfare and reduces to a minimum economic waste consequent upon the liquor traffic and allied evils. The saloonkeeper and his comrades have been excluded from effective participation in the politics of the state."

And to completely settle the question for all time the legislature of Kansas, not by a majority, but unanimously passed at its last session a concurrent resolution affirming in no uncertain language its belief in the advantage of prohibition.

Dothan Industries And Dothan Firms Co-operate With The Buy In Dothan Idea

As a direct result of the Buy in Dothan Campaign being waged by The Eagle, not only are local merchants and business men being materially benefitted, the local buyers afforded special advantages, but the planters, growers and poultry producers of the Dothan vicinity have been brought to a wider and more regular market. The spirit of Buy in Dothan has become so well imbedded in the minds of the merchants and people of the city and vicinity, that Dothan grown products and Dothan made articles are being more persistently demanded.

More actual consumers are being brought to the realization that there are Dothan grown vegetables to be obtained daily fresh from the Dothan fields and gardens; Dothan grown cereals to be obtained from flourishing Dothan farms, and Dothan grown chickens raised by Dothan poultrymen, with fresh eggs in plentiful supply. These articles are coming into greater demand, and to such a noticeable extent that more people are going to these various lines of endeavor. This is made plainly evident in the wholesale manner in which garden and farm implements and machinery are being purchased, and the greatly increased demand for poultry netting.

THE RED IRON RACKET STORE

Well, what it takes to tell the public about values that classy chap with the Charlie Chaplin walk is some ad writer. The boys at The Eagle office are very fond of getting up the Red Iron Racket store. Believe me, that store with the red hot bargains is making some hit in this section of the State. Well, go to it, Katz. The boys all like you because the minute you hit a town you've got that glad hand and pleasant smile for everybody. Well, old boy, that's what it takes to make friends. We wish you all the luck we possibly can wish a good guy, so go to it. And by the way, somewhere in this afternoon's paper you have got a very interesting ad.

WALK-OVER

MURROW & NIX MILLINERY STORE

Dothan's Exclusive Millinery Establishment.

Although this is only the third season of the Murrow & Nix millinery establishment, they have succeeded in building up their business upon such a satisfactory basis, that they are getting quite a lot of orders from the surrounding towns, due to the fact of superior workmanship and very reasonable prices. The public are fully appreciative

of the high quality and styles that are being offered, and are evidencing their faith by their kindly patronage. The Murrow & Nix Millinery Store will honestly endeavor to maintain this policy.

It is a common expression that new styles and creations in millinery are a daily occurrence, and the above firm are keeping step with these changes. They are receiving weekly the latest shapes and military novelties, which are open to the public inspection at all times. They are exclusive-

ly a millinery establishment, and the members of the firm give their entire time and attention to the making of ladies and children's hats. It is no longer the case with them that their work is confined to the season but there is something in the millinery line throughout the entire year. They are making a specialty of their own hand made creations, which are meeting with the approval of the public, and have succeeded in establishing quite a nice business in this particular. Each hat sent out usually brings another customer, due to the special attention in workmanship by Mesdames Murrow and Nix, a fact fully appreciated and commented upon by their trade. This is applicable both as to designing, making and repairing. They wish to thank the public heartily for all patronage in the past, and to state that they are much gratified and pleased with their progress, and that it will be their pleasure to meet the public courteously with their choicest selections at all times.

BASEBALL FANS NOT ALWAYS MEN

The following clipping from the Brunswick (Ga.) News, will be of great interest to the local baseball enthusiasts, and will clearly show that the men are not the only base ball fans in the country.

The Brunswick team is financed by ladies, and shows what the "women can do."

Brunswick ladies held a large and enthusiastic meeting at the city hall yesterday afternoon at which arrangements for the big baseball fair to be held next week in the large hall over the express office were completed. Various committees were named, those who are to be in charge of the several departments were selected and all other preliminary matters disposed of. The ladies reported that they were gratified with the success of the undertaking thus far, and stated that the merchants and others of the city had been liberal in their dona-

tions. The fair will be in charge of Mrs. R. R. Hopkins and Mrs. W. H. DeVoe and Miss Lee Sinkhorn will act as treasurer. Those who are to be in charge of the various booths and their assistants are the following:

Fortune telling booth—Mrs. A. deSola Mendes, Miss Irene Mincer.

Cigar booth—Mrs. B. Borchardt, chairman; Mrs. J. Hunter Hopkins, Misses Clara Wood, Marion Wood, Mary V. Harrison and Ida Borchardt.

Ice cream room—Mrs. Abe Rothschild, chairman; Mrs. J. G. Mincer, Mrs. G. C. Smith, Misses Mildred Levy, Selma Fendig, Laura Johnson and Gladys McKinnon.

Candy booth—Mrs. Alex Dickson, chairman; Mrs. J. H. Morgan, Mrs. Frank Mollard, Misses Sammie Middleton, Katherine Stiles, May Wright, Leila and Alice Parker, Louise Elliot, Marie Hopkins, Dorothy Burford, Ruth and Nell Akin, Elizabeth Abrams and

Burford Aiken. Punch and refreshments—Mrs. L. J. Leavy, Jr., chairman; Mrs. L. H. Haym, Mrs. Alex Rotholz, Misses Dorothy Krauss, Mary Blitch, Margaret Gale, Katherine O'Connor, Francis Hall and Maud Elliot.

Fancy work booth—Miss Bertha Borchardt, chairman; Misses Annie Dean Atkinson, Jane Will Miller, Alice Harrison, Myrtle Jones, Helma Lohm.

Misses Louise Elliot and Irene Mincer will be in charge of the sale of dancing badges, and Miss Marie Hopkins will be in charge of the emcees.

Each night has been set apart as some feature night, as follows:

Monday night—Baseball night.
Tuesday night—Secret order night.
Wednesday night—Military.
Thursday night—Prize dancing.
Friday night—Boy and Girl Scouts.
Saturday night—"Bargain sale" night.
The ladies will at once begin

to decorate the hall. The various committee chairmen are urged to call their committees together as soon as possible and arrange details. Only a short time is left and those in charge are anxious to have everything in readiness for the opening Monday night.

HOUSTON YOUNG MAN FARM
DEMONSTRATION AGENT

J. A. McLeod has received an appointment as farm demonstration agent for Bullock county and left yesterday to take up the work. Jim McLeod, son of H. A. McLeod, is a Houston county boy who is making good in his chosen work. He is a graduate of the Alabama Polytechnic Institute and was connected with a government farm near Columbia last year. He is a most capable farm demonstration man and Bullock county is fortunate in securing his services.

SALT'S FINE FOR

ACHING KIDNEYS

We Eat Too Much Meat Which
Clogs Kidneys, Then The
Back Hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally. Also we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about 4 ounces of Jad Salts from many good drug stores here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

A. C. Kelly of Gradyville, Ga., was in Dothan a while today en route to Shreveport.

THE DOTHAN EAGLE

(Conducted by the National Woman's
Christian Temperance Union)

BEER A POISON.

(By T. D. CROTHERS, M. D.)
The boasted claims that beer is a food and gives vigor and strength are contradicted by statistics. In Munich, Germany, where the largest quantity of beer is consumed, per capita, of any city, the mortality rate from heart and kidney diseases is double that of any other city. Everywhere this is confirmed. The beer drinker dies early from diseases of the heart and kidneys.

If beer had any food elements and were a tonic, exact measurements and studies of statistics would confirm it, but the evidence from these sources is entirely the opposite. The congested face, bloated body and dullness of body and mind are the best evidences of the poisoning and degenerative processes going on. There can be no conflict of opinions on this, because it can be measured and stated in mathematical terms, regardless of the theories.

Alcohol absorbs the water from the cells and tissues, breaks up and diminishes their nutritive power, while beer creates new fermentative and chemical changes in the stomach. These processes are cumulative, not only destroying the balance between waste and repair, but adding immensely to the waste, which permanently disturbs and destroys the vigor and health of the body.

Beer is a most insidious poison because it produces other poisons, and starts new processes of degeneration that are unknown until the final collapse reveals them.

PROBABLE ACTION OF SWEDEN.

In Sweden to be the second nation of the world to outlaw the liquor traffic—the first to follow the example of Russia? From the statements of Mr. Frederick Peterson in a recent magazine article it seems probable. He says: "The present crown prince, who will be the next king if he survives his father, is a total abstainer and forbids the use of liquor in his household. Both houses of the parliament are increasing their temperance membership. Edward J. Wavinsky, the head of the Good Templars of the World, is the temperance leader, as well as leader of the Social Democrats in the upper house." Mr. Peterson states that "133 of the 220 members of the house are total abstainers, and the majority of these are Social Democrats. This party has 87 members in the lower house and 14 in the upper, it being in the majority. In 1896 there was one member representing the Socialists in the lower house and exceedingly few total abstainers. Now the Socialists are the leaders on this question. The working classes, the small wage earners, constitute this party. Who better than they know the evil of intemperance? Woman municipal suffrage has placed many able women in city governments. They are leaders in the temperance army, and it is sublime to see them and hear them speak for home against the rum-seller whether it be in the public forum or in the city council."

LAST WORD IN BREWERY BUILDING.

An immense placard on the top of a big brewery recently erected in Philadelphia was a cause for comment by citizens who saw in it an unintentional prophecy. It read, "The Last Word in Brewery Building." Harry H. Paley of Philadelphia, treasurer of the Reading railway and allied corporations, in a speech made at the annual banquet of the Pottsville Y. M. C. A., called attention to the appropriateness of the placard in view of the fact that the liquor traffic is doomed. He declared that the one service for the uplift of society today is the bringing about of the death of the liquor traffic. He said the handwriting is on the wall and all liquor dealers and brewers would do well to get out of the business at once.

SLUMP IN BREWERY VALUES.

The growing temperance sentiment is responsible for the fact that the Pittsburgh Brewing company paid no dividends this year. As a result of the company's action, the common stock was forced down several points, and Pittsburgh Brewing company bonds dropped to a low-second price. Independent Brewing company also declined three-fourths to two and three-fourths.

RESTRICT BEER OUTPUT.

According to the Lokal Anzeiger, restrictions have been imposed on beer production in Germany. First, the brewers were required to cut down the amount of malt 10 per cent. Then a decrease of 10 per cent was ordered—the authorities, later, to fix definitely the amount of malt each brewery may consume.

UNMIGATED NUISANCE.

The saloon is a nuisance. The evil can no more be confined to the building in which it exists than the odor of a slaughter house to the block in which it is located.—William Jennings
